PROFILE

Highly skilled and motivated Frontend Web Developer with a passion for creating visually stunning and user-friendly web applications and mobile applications. Proficient in translating design concepts into efficient, responsive, and interactive websites and applications. Equipped with a solid understanding of modern web technologies and best practices, with a commitment to staying up-to-date with the latest industry trends. A creative problem solver with a keen eye for detail and a strong focus on delivering a seamless user experience.

WORK EXPERIENCE

Frontend Developer | SSDN Technologies Pvt. Ltd.

Gurgaon, Haryana   2022-2022

- As a React Native Developer Intern at SSDN Technologies Pvt. Ltd. , I had the opportunity to contribute to the development of mobile applications using React Native framework.
- Developed reusable and modular components to be integrated into different sections of the application. This approach improved development efficiency and maintained consistency across the app.
- Assisted in the design and development of mobile applications for both Android and iOS platforms using React Native. Collaborated with senior developers to understand project requirements and implement app features.

Web Developer | InternPe

Jaipur, Rajasthan   2023-2023

- During my internship at XYZ Web Agency, I had the opportunity to work alongside a talented team of web developers and gain practical experience in various aspects of web development.
- Assisted in building and maintaining responsive and user-friendly websites using HTML, CSS, and JavaScript. Collaborated with senior developers to implement designs and ensure cross-browser compatibility.

PROJECT

EXPENSE TRACKER

REACT NATIVE

- The Expense Tracker App is a mobile application developed using the React Native framework, designed to help users efficiently manage their finances and track their expenses on the go. The app provides a user-friendly interface and essential features to record, categorize, and analyze expenses, empowering users to gain better control over their spending habits.

YOUTUBE CLONE

REACT JS

- Creating a complete YouTube clone is a complex project, but I can provide you with a simplified outline of the key components and features you can implement in a YouTube clone using React.js.
